

Dinakar is a qualified actuary with over 35 years of extensive experience across the life insurance and reinsurance sectors in India. He began his career with LIC of India in 1990, dedicating a decade to the organization before transitioning to various private life insurance companies.

During his career, Dinakar has also served as an Appointed Actuary (AA), a role that carries statutory responsibilities and grants the privilege of participating in Company Board meetings. His expertise spans:

- Product Development & Pricing: Individual and group products across life, health, and pension categories
- Liability Valuation: Under Indian statutory frameworks and US GAAP
- Performance Analysis: Using European Embedded Value (EEV), Indian Embedded Value (IEV), and IFRS 17 reporting standards
- Risk Management: Deep understanding of practices in both life insurance and reinsurance domains

In his last assignment, Dinakar was associated with a reinsurer Hannover Re – India Branch as a Life Actuary.

He is known for his strong analytical acumen and a coaching-style leadership approach that fosters team growth and collaboration. He is up to date in terms of knowledge in the data analytical tools like Python, R-Studio, SQL etc.

Dinakar holds a Master's degree in Statistics from Cochin University of Science & Technology and a Fellow of Institute of Actuaries of India (FIAI).
